CCP Training Policy

CCP is committed to the ongoing education, training and skills development of our workforce.

The aim of this policy is:

- To ensure that the workforce is competent and suitably skilled to carry out all duties and operations safely and effectively.
- To ensure that the workforce understands that statutory and legal obligations placed on them and the company and follows procedures to ensure their own and company compliance.
- To provide the workforce with an understanding of the company's policies, procedures and approach to operating the business.
- To ensure that the workforce is aware of the implications of their activities for product quality, environmental impact, health and safety and economic performance of the company and understands the systems and procedures put in place to optimise performance.

Signed:

Richard Tatlow – Production Director
